FAO Keith Henry – Technical Sales Manager

Dear Keith,

Subject: Use of Telensa Telecells on unmetered loads within the Essential Energy operational region

Sunshine Coast Council as a Lighting Network Service Provider intends installing lighting on the unmetered network within our area of operation and controlling this lighting using Telecells to provide monitoring, control and enable reductions in energy and greenhouse emissions.

To enable these initiatives to benefit Sunshine Coast Council it will be necessary to include them within the AEMO Load Tables.

Therefore, Sunshine Coast Council supports your submission to include these Telecells in the Load Table. Please advise when they have been published.

Yours sincerely

Ray Earle
